Pinot Grigio Trentino DOC

Neil and Maria Empson created Bollini to fill a gap in the market for quality wines from the Alpine foothills of Friuli and Trentino in 1979. Their goal was to showcase the excellence and consistency of international varieties grown in Italy's cool northeastern regions, while keeping the prices affordable. Choice hillside locations, ideal day/night temperature swings, good ventilation and the complexity and minerality that come from the soil, all contribute to achieving concentrated, highly extracted fruit. The grapes for this Pinot Grigio thrive in hillside vineyards set against the breathtaking mountains of the Dolomites. Crisp, fresh mountain air, soils full of minerals and diurnal temperature ranges contribute to making for a unique wine. When Neil Empson first set out to make this wine, he aimed for a highly extracted, concentrated wine with more complexity. Because of this, the wine rests on its lees for a long period of time.
